BE IT ENACTED BY THE GENERAL ASSEMBLY OF (Insert STATE):

Section 1 Short Title

This article shall be known and may be cited as the 'Orthotics, Prosthetics, and Pedorthics Practice Act.'

Section 2 Legislative Intent

The General Assembly finds that the practice of orthotics and prosthetics in this state is an allied health profession recognized by the American Medical Association, with educational standards established by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) or its successor organization. The increasing population of elderly and physically-challenged individuals who need orthotic, prosthetic, and pedorthic services requires that the orthotic, prosthetic, and pedorthic professions are regulated to ensure the provision of high quality services and devices. The people of this state deserve the best care available and will benefit from the assurance of initial and ongoing professional competence of the orthotists, prosthetists, pedorthists, and orthotic fitters practicing in this state. The practice of orthotics, prosthetics, and pedorthics serves to improve and enhance the lives of individuals with disabilities by enabling them to resume productive lives following serious illness, injury, or trauma. Unregulated dispensing of orthotic, prosthetic, and pedorthic care does not adequately meet the needs or serve the interests of the public. In keeping with requirements
imposed on similar health disciplines, licensure of the orthotic, prosthetic, and pedorthic professions will help ensure the health and safety of consumers, as well as maximize their functional abilities and productivity levels. This article shall be liberally construed to carry out these subjects and purposes best.

Section 3 Definitions

As used in this article, the term:
