# **BOC DMEPOS Product Category List**

**Includes:**  
*Associated Personnel Suggestions*

## DMEPOS Product Category List

BOC offers accreditations for all DMEPOS product categories. Product categories are awarded to suppliers that show adequate competency in the provision of the products within that category, along with overall compliance of the quality standards. Consult the [HCPCS to Product and Service Code Crosswalk](#) from the *Pricing Data Analysis and Coding Contractor* (PDAC) for more information. Compliance with applicable CMS or State requirements may be required; see list of BOC “Suggested Personnel” below.

The Product Category descriptions below are organized alphabetically and align with the products and services listed on the [CMS-855s form](#). Contact a member of the BOC Accreditation Team at [fa@bocusa.org](mailto:fa@bocusa.org) or 877.776.2200 with your questions regarding product category requirements. If your business is currently accredited by BOC and you would like to add product categories to your existing accreditation, complete and submit the [Addition of Product Categories Application](#).

CMS Code	Product Category Description	BOC Suggested Personnel <a href="#">(Click for information on state requirements.)</a>
<b>DM01</b>	Automatic External Defibrillators (AEDs) and/or Supplies	CPR Training
<b>DM06</b>	Blood Glucose Monitors and/or Supplies (mail order)
