## **DMEPOS Product Category List**

BOC offers accreditation for *all* DMEPOS product categories. As of 1/1/2021, only certain off-the-shelf orthoses are subject to competitive bidding, you can find more information on the Competitive Bidding Implementation Contractor (CBIC) website <a href="here">here</a>. In order to be awarded a product category, suppliers must show adequate competency in the provision of the products within that category. You can find a HCPCS code to Product Category code crosswalk from the Pricing Data Analysis and Coding contractor (PDAC) <a href="here">here</a>. Minimally, manufacturer training is needed on appropriate provision of the products for which accreditation is desired, however compliance with applicable CMS or State requirements may be required and the "Suggested Personnel" column below contains BOC's suggestion for meeting those.

If you have any questions regarding product category requirements, contact a member of the BOC Accreditation Team at fa@bocusa.org or 877.776.2200.

If you are currently accredited and would like to add or product categories, you can use the "Addition of Product Categories Form."
