Lymphedema/Compression Accreditation with BOC

The Board of Certification/Accreditation is excited to support and provide a Lymphedema/Compression Accreditation, now available as part of our CMS DMEPOS deemed accreditation program. This specific accreditation is designed to meet the unique needs of patients requiring lymphedema treatment and/or compression therapies.

To qualify for this accreditation in the particular product categories listed below, suppliers must demonstrate proficiency in providing the relevant products and compliance with the quality and supplier standards. [Here you will find a link to the compliance requirements](#) each facility must have at the time of survey. This ensures that the needs of patients are met with the highest standard of care and the facility operates within the guidelines of CMS.

For your convenience, a crosswalk [linking HCPCS codes to Product Categories](#), as provided by the Pricing Data Analysis and Coding contractor (PDAC), [is available here](#).

The product categories under this accreditation include:

- *S04: (New) Lymphedema Compression Treatment Items (encompassing 78 HCPCS codes)*
- *S01: Surgical Dressings*
- *DM18: Pneumatic Compression Devices*
- *DM08: Heat & Cold Applications*

If you have any questions regarding accreditation or specific product category requirements, email the [BOC Accreditation Team](#) or call 877.776.2200 and ask for Jane Webster.
